

ELIGIBLE QUALIFICATIONS

Overview of programme

In summer 2025, the Society for the Environment (SocEnv) launched a new register: Entry-Level Environmentalist (ELEnv).

As part of this launch, we're compiling a list of qualifications that automatically meet the eligibility criteria for applying to ELEnv, regardless of the provider (if multiple) and additional experience.

If your qualification isn't on the list, it doesn't necessarily mean you're not eligible. Please reach out to the Licensed Member. They'll ask for details about the qualification you've completed and any relevant experience you may have. From this they will be able to advise you of your eligibility and guide on any next steps.

To complete the application, individuals must also be a member of a **professional body licensed by SocEnv**.

ELEnv status is valid for **up to three years**. During this time, registrants are expected to work, supported by their professional body, towards achieving one of the following **competency-based registrations**:

- **REnvTech** (Registered Environmental Technician)
- **REnvP** (Registered Environmental Practitioner)
- **CEnv** (Chartered Environmentalist)

Eligible Qualifications

Apprenticeships in Wales, Scotland and Northern Ireland		
Qualification / Apprenticeship	Qualification or Code Number	Additional Information
Sustainable Resource Operations and Management Levels 2,3,4	ACW Framework No.: FR03105	Apprenticeship – Wales https://findanapprenticeship.service.gov.wales/find-an-apprenticeship-framework/energy/sustainable-resource-management
Water Industry Levels SCQF 5 and 6	Modern Apprenticeship	Apprenticeship – Scotland https://www.apprenticeships.scot/modern-apprenticeships/water-industry/individual
Trees & Timber SCQF Levels 5 and 6	Modern Apprenticeship	Apprenticeship – Scotland https://www.apprenticeships.scot/modern-apprenticeships/trees-and-timber/individual/
Sustainable Resource Management SCQF Level 5	Modern Apprenticeship	Apprenticeship - Scotland https://www.apprenticeships.scot/modern-apprenticeships/sustainable-resource-management/individual/
Trees and Timber Level 2	ACW Framework No: FRO5038v2	Apprenticeship – Wales https://findanapprenticeship.service.gov.wales/find-an-apprenticeship-framework/agriculture-and-environment/trees-and-timber
Energy Management Level 3	ACW Framework No.: FR05069	Apprenticeship - Wales https://findanapprenticeship.service.gov.wales/find-an-apprenticeship-framework/energy/energy-management
Sustainable Resource Management Level 3	Level 3 Apprenticeship Framework	Apprenticeship - Northern Ireland https://www.nidirect.gov.uk/articles/sustainable-resource-management-level-3-apprenticeship-framework#toc-0

Apprenticeships in England

Qualification / Apprenticeship	Qualification or Code Number	Additional Information
Countryside Worker Level 2	ST0408 version 1.0	Apprenticeship - Skills England https://skillsengland.education.gov.uk/apprenticeships/st0408-v1-0
Nuclear Operative Level 2	ST0291 versions 1.0, 1.1	Apprenticeship - Skills England https://skillsengland.education.gov.uk/apprenticeships/st0291-v1-1
Water Process Operative Level 2	ST0876 Version 1.0	Apprenticeship – Skills England https://skillsengland.education.gov.uk/apprenticeship-standards/st0876-v1-0
Metal Recycling General Operative Level 2	ST0507 version 1.0	Apprenticeship - Skills England https://skillsengland.education.gov.uk/apprenticeships/st0507-v1-0
Arborist Level 2	ST0223 version 1.0, 1.1 and 1.2	Apprenticeship - Skills England https://skillsengland.education.gov.uk/apprenticeships/st0223-v1-2

T Levels and HTQs in England

Note – Any HTQ that is based on an occupational standard listed in the Skills England occupational maps, and where the related apprenticeship has been ratified by SocEnv as eligible for a shortened route to REnvTech & REnvP, is automatically eligible for EEnv.

Qualification / Apprenticeship	Qualification or Code Number	Additional Information
T Level – Agriculture, Land Management & Production	TL0018d TL0018c TL0018c TL0018f TL0018a	Land-based Service Engineering Technician Arborist Tree and Woodland Management and Maintenance Ornamental and Environmental Horticulture and Landscaping Crop and Plant Production
T Level – Design, Surveying and Planning for Construction	TL0004d	Design, Surveying and Planning
Foundation Degree in Science Arboriculture and Tree Management	OCC0921	Higher Technical Qualification HTQ Awarding body – University of Central Lancashire
BTEC Level 5 Higher National Diploma in Sustainable Business Management for England	OCC0934	Higher Technical Qualification HTQ Awarding body - Pearson
FdSc Wildlife, Ecology and Conservation Management	OCC0926	Higher Technical Qualification HTQ Awarding body – University of Hull
FdSc Horticulture and Applied Plant Science	OCC0924	Higher Technical Qualification HTQ Awarding body – University of Central Lancashire
Pearson BTEC Level 5 Higher National Diploma in Modern Methods of Construction for England	OCC0043	Higher Technical Qualification HTQ Awarding body – Pearson
Pearson BTEC Level 4 Higher National Certificate in Modern Methods of Construction for England		Awarding body – Pearson

FdSc Level 5 Sustainable Construction and the Built Environment		Awarding body – University of Plymouth
HNC Level 4 Construction and Digital Innovation		Awarding body – City College Plymouth
Level 5 Construction Design and Build Technician (Foundation Degree)		Awarding body – Birmingham City University

T Levels and HTQs in England (continued)

Qualification / Apprenticeship	Qualification or Code Number	Additional Information
FdSc Level 5 Civil Engineering and Construction Management	OCC0043	Higher Technical Qualification HTQ
FdSc Level 5 Construction Management		Awarding body - University of East London
Pearson BTEC Level 5 Higher National Diploma in Architectural Technology for England		Awarding body – Staffordshire University
Pearson BTEC Level 4 Higher National Certificate in Architectural Technology for England		Awarding body – Pearson
Pearson BTEC Level 4 Higher National Certificate in Construction Management for England		Awarding body – Pearson
Pearson BTEC Level 5 Higher National Diploma in Construction Management for England		Awarding body – Pearson
Certificate Level 4 of Higher Education in Technical Practice in Architectural Technology and Design Management		Awarding body – Sheffield Hallam University
HND Level 5 Sustainable Construction Design		Awarding body – Liverpool John Moores University
CertHE Level 4 Construction Design and Build		Awarding body – University of Bedfordshire

Certificate Level 4 of Higher Education in Construction Design and Build Technician		Awarding body – University of Greenwich
